

THE ESSENTIALS OF BIOMEDICAL TESTING

Online Training Course

Instron® eLearning

Our eLearning course is specifically tailored for operators and managers who wish to be familiar with biomedical testing in a convenient, leisurely fashion. Our eLearning courses are intended for “Individual” users. The course will be available for a single viewing completion within 90 days of your purchase date. For group rates, please contact Instron Training.

Course Description

Prerequisites: None

Duration: Approximately 1 hour

Payment Options: Paypal, Credit Card, or Standard Company Purchase Order

The eLearning course, The Essentials of Biomedical Course, is an online based overview of the basics of biomedical testing. The course is ideal for new operators, employees with limited biomedical background and lab managers who are seeking a refresher.

Topics Include:

- Bio Applications
- Specimens Considerations
- Test Types
- Test Standards
- Results versus calculations
- IQ, OQ and PQ
- FDA 21CFR Part 11

Course Objective

After completing this course, the participant will become familiar with the basics of biomedical testing. They will get exposure as it relates to specimens, testing types, test standards, test results and regulatory considerations.
