

The difference is measurable®

INSTRON® CONNECT

Instron® Professional Services

Instron Connect offers the highest level of technical support for Instron systems around the world. As mission-critical machines and processes become more complex, the challenge of maintaining uptime in labs and streamlining related business processes has grown.

Instron Connect includes a number of technologies that create a secure connection between the testing systems at your facility and Instron. Our problem solving tools harness innovative technology to rapidly troubleshoot issues and answer your technical questions, increasing productivity, reducing risk and minimizing downtime.

INDUSTRY LEADING TECHNICAL SUPPORT

Instron Connect allows our Technical Support team to provide unparalleled support and guidance. Our investments in secure connectivity allow us to directly read system diagnostics information, and assist you with software questions via remote screen share.

OBTAIN INFORMATION FAST

Access your Instron system's calibration certificates, service history and service agreement information through the Instron Connect Portal or InSkill AI mobile app to provide security for audit and lab evaluations. Download the latest software and firmware updates to keep your system running in optimal condition through the Instron Connect Software or Instron Connect Portal.

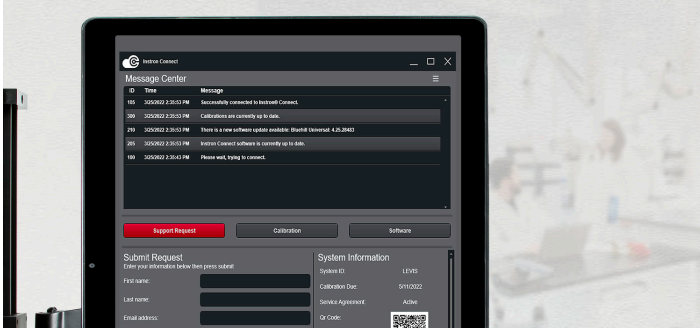

ENHANCE YOUR CAPABILITY & MINIMIZE SYSTEM DOWNTIME

Improve your Instron system's productivity with the InSkill AI troubleshooting tool which draws on a wealth of proprietary technical expertise to rapidly diagnose issues and provide solutions. Designed to get you back to testing as quickly as possible, it's available 24/7 via smartphone, tablet or PC.

WAYS TO USE INSTRON CONNECT

Instron Connect includes a number of technologies that enable you to connect with Instron, including:

INSTRON CONNECT SOFTWARE

An integrated support tool which is available on your Instron operator dashboard or PC.

- Send requests for technical support or calibration
- Scan the QR code to access the InSkill AI mobile app
- Share your screen and system diagnostics data with Instron Technical Support
- Receive calibration and service agreement reminders
- Download software updates
- Available to anyone using the testing system

INSTRON CONNECT CUSTOMER PORTAL

A site that can be accessed on any device with a web browser.

- Send requests for technical support, calibration or on-site service
- Download software updates
- Access calibration certificates and service history
- View your service agreement
- Request authorized access for other users
- Self-diagnose your system's issues with the built-in InSkill AR mobile app

INSKILL AI MOBILE APP

A mobile app, powered by InSkill, which can help you minimize your downtime and obtain information for your Instron system.

- Troubleshoot your system's issues with our AI-driven support tool
- Submit support requests
- View your system's calibration certificates and service history

VIDEO CONFERENCE CALLING

Connect directly with Instron Technical Support using the video conferencing platform of your choice.

- Bring Instron's Technical Support team's eyes into your lab
- Increases first-time remote repair rates, eliminating the need for on-site visits, reducing system downtime and associated costs

WHICH PRODUCTS ARE COMPATIBLE WITH INSTRON CONNECT?

Instron Connect is available for all Instron systems, although some capabilities may be limited for certain models or software packages.
